**REQUEST FOR CORRECTED APPLICATION PUBLICATION**

Sir:

The Applicant hereby requests correction of material errors in U.S. Application Publication number US 2003/0002569 A1, which was published on January 2, 2003. A specific and detailed listing of the errors is provided below.

By way of background, the subject application was filed on March 14, 2002. It contained a description (59 pages), claims (8 pages), abstract (1 page) and drawings (11 pages). The subject application also contained an Attachment (458 pages), which consisted of a copy of U.S. Provisional Application number 60/295,060, filed on June 1, 2001, which in turn included copies of U.S. Provisional Application number 60/289,600, filed on May 7, 2001, and U.S. Provisional Application number 60/275,846, filed on March 14, 2001.

The material errors in the Application Publication are detailed as follows:

1. Pages 1 – 59 of the specification are missing (see Exhibit 1);
2. The Attachment cover page and Attachment pages 1 – 26 are missing (see Exhibit 2).

As a result of these missing pages, the first page of the published specification proceeds from Attachment page 27 of the subject application, rather than page 1 of the subject application. The Background of the Invention, Summary of the Invention and Detailed Description shown in the Application Publication are that of Provisional Application number 60/275,846, and not that of the subject application itself.

The Figures and Abstract published in the Application Publication are correct.

The Applicant hereby requests that the Application Publication be corrected to include pages 1 – 59 of the subject application (to wit, the Background of the Invention, Summary of the Invention, Brief Description of the Illustrated Embodiment and the Detailed Description of the Illustrated Embodiment) and the Attachment cover page and Attachment pages 1 – 26.

The Applicant requests that the U.S. Application Publication No. US 2003/0002569 A1 be corrected by the U.S. Patent Office. The Applicant believes that no fee should be due for this purpose. If the Applicant is incorrect, the Assistant Commissioner is authorized to charge any such fees that may be due to Deposit Account No. 141449.

Date:

2/28/03

Respectfully submitted,

David J. Powsner, Reg. No. 31,868
